## 2022 Fiscal Year - Consolidated Annual Performance and Evaluation Report 09/28/23

This document is written in conjunction with the Alameda County HOME Consortium. Complete analysis is included across both documents.

## **CR-05 - Goals and Outcomes**

### **Progress the jurisdiction has made in carrying out its strategic plan and its action plan. 91.520(a)**

This could be an overview that includes major initiatives and highlights that were proposed and executed throughout the program year.

At the end of its program year, the City of Alameda is required to provide an annual report to HUD that summarizes its performance for the program year. This report is called the Consolidated Annual Performance and Evaluation Report (CAPER). This CAPER is for fiscal year 2022-23 (FY 2022), the third year of the five-year Consolidated Plan (2020 – 2024).

This 2022 CAPER covers the period from July 1, 2022 through June 30, 2023 (FY 2022). The City received \$1,139,561 in CDBG entitlement funds as well as Coronavirus Aid, Relief, and Economic Security (CARES) Act funds that were carried forward from FY 2020. Other CDBG funds noted in the Annual Action Plan for FY 2022 include \$72,000 of projected program income to be received from loan repayments and reprogramming of \$1,850,364 of CDBG funding from prior years that were not expended by the assigned projects. Public service and administration projects are funded at the maximum allowed by HUD.

### **2022 Annual Action Plan Accomplishment Highlights**

- Mental Health Services - 44 persons assisted
- Emergency Food Distribution - 6,302 persons assisted
- Midway Shelter Services – 66 persons assisted
- 2-1-1 Information & Referral – 459 persons assisted
- Direct Legal Services – 37 persons assisted
- Legal Assistance for Alameda Seniors – 39 persons assisted
- Community-Based Development Organization – 22 persons assisted

In FY 2022, the Emergency Shelter program was funded with CARES Act funds:

#### **CV-Emergency Shelter**

4 persons assisted

This year, the Family Violence Law Center’s Emergency Shelter Program was able to provide emergency hotel relocation, crisis counseling, and safety planning to four (4) unduplicated victims of domestic violence within the City of Alameda.

**Comparison of the proposed versus actual outcomes for each outcome measure submitted with the consolidated plan and explain, if applicable, why progress was not made toward meeting goals and objectives. 91.520(g)**

**Table 1 - Accomplishments – Program Year & Strategic Plan to Date**

**Assess how the jurisdiction’s use of funds, particularly CDBG, addresses the priorities and specific objectives identified in the plan, giving special attention to the highest priority activities identified.**

The 2022 Annual Action Plan outlined the goals for the City to achieve. Table 1 reflects the five-year goals set in the Consolidated Plan. The City did not receive applications for activities such as clearance or for loans to small businesses. For this reason, there are goals that were not funded in FY 2022. However, they remain City priorities. Despite the continuing challenges associated with administering programs during the COVID pandemic, the City generally exceeded the estimates for the number of low- to moderate-income residents who would benefit from program activities.

CV-Emergency Shelter: 6 persons assisted The Family Violence and Law Center (FVLC) provided critical services for individuals fleeing stalking, dating violence, domestic violence, sexual assault or human trafficking that occurred within the City of Alameda. The Alameda Police Department (APD) provides domestic violence police reports directly to FVLC Crisis Services Managers, who follow up with victims to offer crisis intervention and legal services. FVLC's Emergency Shelter Program provided emergency hotel relocation, crisis counseling and safety planning to six individuals within the City of Alameda. The six individuals served received 29 nights of hotel stays. This allowed survivors to leave violent

homes without fear of immediate insecurity in the midst of a global pandemic.

## **SECTION 108**

In 2006, the City of Alameda was awarded HUD Section 108 funding. The former Community Improvement Commission (CIC) obtained a \$7,000,000 loan to finance the construction of the Civic Center Parking Garage (Garage) in conjunction with the redevelopment of the historic Alameda Theatre. The Garage was developed to serve downtown Alameda, which was badly under-parked, with vacancies in retail and office directly related to the lack of parking. In August 2022, City staff conducted a survey of the 34 locations and four new commercial properties that have been built in the immediate vicinity since 2006. Staff continued to collect survey data through September 2022. Staff analyzed the data and determined that more than 203 full-time equivalent jobs had been created in the locations that had been vacant at the time that the City submitted the Section 108 loan application to HUD. Based on this analysis, the City determined that it has satisfied HUD's Section 108 loan job creation requirements.

Table 2 – Table of assistance to racial and ethnic populations by source of funds

### Narrative

The City of Alameda is very diverse. The table above does not capture the bulk of the beneficiaries who are biracial or other. For example, the City of Alameda CDBG program served 3,048 minority and minority biracial individuals and families in the 2022 fiscal year, accounting for about 43% of the total served. The U.S. Census July 1, 2021 (V2021) showed the City's population to be 45.9% white alone, 7.1% Black or African American alone, and 31.8% Asian alone.

### Narrative

**All activities discussed in the 2022 CAPER were intended for, and open to, income-eligible households and persons within the City of Alameda.** Because of the compact geography, programs are implemented on a community-wide basis unless otherwise indicated, with participants' eligibility determined based on the household's income. According to 2020 US Census Bureau Data, 7.1 percent of Alameda residents are living below the poverty line. Both the statistics for the area and stakeholder comments direct the City of Alameda to fund projects that will directly impact those with the most

need.

Some programs, however, are administered based on the low and moderate-income status of the neighborhood. In FY 2022, any census tract where more than 48.04 percent of households have incomes at or below 80 percent of area median income (AMI) qualifies as a low or moderate-income area.

Most of the programs the City of Alameda funds with its annual allocation directly benefit low or moderate-income individuals or households. Through programs like the Alameda Food Bank, Building Futures with Women and Children, Midway Shelter/Homeless Prevention Program, and the Alameda Point Collaborative, the City will improve the physical environment, and focus resources on safety net and empowerment services needed by the area's residents.

At the same time, there are many low-income or disabled homeowners and renters who live in other Alameda neighborhoods, and assistance will be provided to qualified households through substantial residential rehabilitation, homeownership, and public service programs.

The City works continuously with City departments, other public agencies, community-based organizations, and neighborhoods to identify and address obstacles to meeting underserved needs.

**Projects for FY 2022 were available to low- and moderate-income residents throughout the city.** A few projects are site-specific for improvements and additions to homeless shelters or rental rehabilitation projects. These projects will benefit low- and moderate-income persons.

## Leveraging

**Explain how federal funds leveraged additional resources (private, state and local funds), including a description of how matching requirements were satisfied, as well as how any publicly owned land or property located within the jurisdiction that were used to address the needs identified in the plan.**

Because the provision of affordable housing and social services can be high in cost, the City of Alameda and its projects must leverage other dollars to achieve the outcomes each year. In fiscal year 2022, the City of Alameda leveraged more than \$9,028,071 to complete its projects.

In FY 2022, the City used publicly owned land within the jurisdiction to address the needs identified in the plan. Dignity Village is a 47-unit interim supportive housing community in Alameda, CA that can serve up to 61 unhoused individuals, including five units for transitional-age youth. Dignity Village was constructed on publicly owned land and leveraged more than \$9 million of private, state and local funds for construction and on-site services.

## CR-20 - Affordable Housing 91.520(b)

Evaluation of the jurisdiction's progress in providing affordable housing, including the number and types of families served, the number of extremely low-income, low-income, moderate-income, and middle-income persons served.

**Discuss the difference between goals and outcomes and problems encountered in meeting these goals.**

In FY 2022, the City of Alameda had several affordable housing projects in various stages, including some in the process of applying for funding. Once those projects obtain financing, the construction period will be 18-24 months. Once the projects are funded, constructed and occupied, the City can report data in the tables in this section.

In May 2022, Dignity Village completed construction and reached 94% occupancy in less than 60 days. Dignity Village is a 47-unit supportive housing community that can serve up to 61 unhoused individuals, including five units for transitional-age youth. Despite the recent successes, there is a continued need for affordable housing in the City and there are approximately 220 units of affordable housing in the pipeline for development.

In FY 2022, the City of Alameda formally established the Housing and Human Services Division of the City Manager's Office (HHS). HHS facilitates the preservation, rehabilitation and construction of affordable housing in Alameda; supports residents who are homeless or at risk of homelessness by providing services and shelter, as well as offering flexible funding; implements the affordable housing requirements of the City's Inclusionary Housing Ordinance; manages grants that support the construction of new affordable housing; and collaborates with community and social service providers whose programs preserve safety net services for low-income residents, including, but not limited to children, youth, seniors and persons with disabilities. HHS staff also support the Social Service Human Relations Board (SSHRB) and the Alameda Collaborative for Children, Youth and their Families (ACCYF).

In FY 2020 and FY 2021, the City has had at least one multifamily, affordable housing development complete construction. FY 2022 numbers are lower because many affordable housing developers were in the process of applying for funding to support building more affordable housing.

To help the community as a whole overcome the barriers to affordable housing development, and also maximize the impact in the community, Alameda will strive to increase affordable housing opportunities with the following programs:

- Residential Rehabilitation Program - This program provides financial and technical assistance to renovate single and multifamily unit properties occupied by low-income households.
- Substantial Rehabilitation Program - This program provides financial and technical assistance to restore and/or create affordable rental units in existing vacant and underutilized structures.
- Housing Safety Program - This program provides financial assistance to assist low-income seniors and persons with disabilities to maintain residential safety and accessibility.
- Minor Home Repair – This program provides financial assistance to low-income households for emergency repairs to address health, safety and security items, or minor repairs of carpentry, plumbing, heating, and electrical items.

The accomplishments associated with these programs were impacted by staff changes as well as the need to implement new protocols for interacting with a medically fragile population as a result of the COVID pandemic. During the second half of FY 2022, the City engaged two contractors to administer the aforementioned programs. Habitat for Humanity administers the first two programs provided that the loan amount is \$15,000 or more, and Rebuilding Together administers projects that are below \$15,000.

**Discuss how these outcomes will impact future annual action plans.**

The City of Alameda will continue to fund its affordable housing programs, helping low- and moderate-income households maintain their housing in an increasingly expensive housing market. The City’s Development Forecast has six different developments in various stages of the predevelopment process. At least three of them are actively applying for funding. If awarded tax credits in 2023, then those projects may begin construction by 2024 and become available for leasing 18-24 months later.

Traditional redevelopment has been led by non-profit community development organizations and local, nonprofit affordable housing developers. The City is working with affordable housing developers with the following proposed projects:

- North Housing Permanent Supportive Housing, Phases 1-3
- Site A Affordable Housing Developments
- McKay Senior Housing
- Rebuilding the Existing Supportive Housing at Alameda Point (RESHAP)

**Include the number of extremely low-income, low-income, and moderate-income persons served by each activity where information on income by family size is required to determine the eligibility of the activity.**

<b>Total</b>	<b>0</b>	<b>0</b>

**Table 7 – Number of Households Served**

**Narrative Information**

The Alameda area continues to grow with households attracted to the historic downtown area, good schools and park system, and homes with Victorian charm. This demand for housing along with limited space has made the increases in property values to grow exponentially. According to Zillow, the typical value of a home was \$1,390,000 as of June 2022. The median value of a home has increased by 13.9 percent in the last 12 months. With the high rent and purchase costs in Alameda, few affordable opportunities exist for residents of Alameda.

HUD defines affordable housing as a household paying equal to or less than 30 percent of its gross monthly income towards housing costs. If the household pays more than 30 percent, it is considered to have a cost burden. If the household pays more than 50 percent of its gross monthly income, it is considered to have a severe cost burden.

With the high rent and purchase costs in Alameda, few affordable opportunities exist for residents of Alameda. Those who work in Alameda may have to choose other places to live and commute into the City for their employment. For others, housing becomes unattainable. According to the Point-in-Time count of unhoused individuals, unsheltered homelessness grew from a 231 individuals in 2019 to 264 individuals in 2022. Initiatives funded by the City of Alameda strive to develop a place for all residents to live, work, and play.

## **CR-25 - Homeless and Other Special Needs 91.220(d, e); 91.320(d, e); 91.520(c)**

**Evaluate the jurisdiction's progress in meeting its specific objectives for reducing and ending homelessness through:**

### **Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs**

At the first stage of intervention, the City of Alameda (City) serves its unhoused population on the streets through a Homeless Outreach Team (HOT). The need for mobile homeless outreach is present and growing as Alamedans continue to be adversely affected by the impact of rising housing prices, the inflation of costs for basic needs like food and toiletries, family trauma, and serious mental health illnesses. According to the February 2022 Point-In-Time count, the City has 264 homeless individuals.

In FY 2022, the Village of Love Foundation (VOL) provided HOT services to the City. VOL plays a critical role in the journey from homelessness to supportive housing solutions. VOL is able to meet the unhoused on the street, offer basic services, develop relationships and refer individuals forward to supportive housing options as appropriate.

### **Addressing the emergency shelter and transitional housing needs of homeless persons**

Open since November 2022, four City-owned homes now offer up to 26 beds for individuals and families experiencing homelessness. Supportive services are available 24 hours a day, seven days a week and provided by VOL. Counseling, case management, and permanent housing assistance are offered onsite in a comfortable, home setting. Since opening in November 2022, the housing stability created by the program has allowed for a total of four individuals to move to permanent housing solutions or identify a permanent housing plan through June 30, 2023.

The City continues to offer emergency shelter at its day center, through the Safe Parking program and through four trailers that it obtained at the beginning of the COVID pandemic. While those programs were previously funded by CDBG, in FY 2022, the City funded them with general funds as well as local, State and private sources.

### **Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: likely to become homeless after being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); and, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs**

The City contracted with Building Futures with Women and Children (Building Futures) to provide one-time, flexible funding for housing problem solving. An example of this use would be to repair a car that a

family or individual needs to maintain employment. The loss of employment would lead to the inability to pay housing costs and may lead to a downward spiral to homelessness. Building Futures holds a contract with the County of Alameda to implement a similar service. Individuals served receive outreach, housing counseling, referrals to needed services, and intake into the Homeless Management Information System (HMIS).

**Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again**

In FY 2022, VOL's HOT staff provided critical expertise in building trust and helping individuals move from Alameda's streets to shelters. VOL and Building Futures also actively collaborated to ensure that individuals were enrolled in the County's Homeless Management Information System. The relationships built by VOL and Building Futures enabled Dignity Village to fill 44 of the 47 units, 94% occupancy, within 35 days after opening its doors.

## **CR-30 - Public Housing 91.220(h); 91.320(j)**

### **Actions taken to address the needs of public housing**

The Housing Authority of the City of Alameda (AHA) does not own any public housing. There is no public housing within the City of Alameda.

The City's CDBG programs help serve low- to moderate-income residents, including those who are utilizing housing choice vouchers. The City's activities that provide legal assistance, emergency rental assistance, access to food, mental health program for students, and job training all provide support to residents most in need of support.

### **Actions taken to encourage public housing residents to become more involved in management and participate in homeownership**

Although there are no public housing units within the City of Alameda, AHA is proactive in incorporating resident input into the agency's policy-making process. An equitable and transparent policy-making process that includes the opinions of residents is achieved through the involvement of two tenant commissioners on the AHA board.

### **Actions taken to provide assistance to troubled PHAs**

The Housing Authority of the City of Alameda is not a troubled PHA.

## **CR-35 - Other Actions 91.220(j)-(k); 91.320(i)-(j)**

**Actions taken to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment. 91.220 (j); 91.320 (i)**

Alameda is committed to evaluating and removing the negative effects of public policies that serve as **barriers to affordable housing**. The City continues to work through the regional goals outlined in the Alameda Home Consortium's Assessment of Impediments to Fair Housing Choice.

### **Regional Goal: Jurisdiction Policies**

Maintain, improve, and implement a local policy that supports affordable housing and fair housing.

ACCOMPLISHMENTS: In FY 2022, the City Council adopted the 2023-2031 Housing Element update, which demonstrated how Alameda would meet the state's Regional Housing Needs Allocation (RHNA) of 5,353 units. The City has a pipeline of approximately 220 units of affordable housing for development in the next three to five years.

### **Regional Goal: Rehabilitation**

Preserve and rehabilitate existing affordable housing stock

ACCOMPLISHMENTS: During the second half of FY 2022, the City engaged two contractors to administer the rehabilitation programs. Habitat for Humanity administer projects where the scope of work is \$15,000 or more, and Rebuilding Together administers projects that are below \$15,000.

### **Regional Goal: Unit Production**

Increase the number of affordable housing units

ACCOMPLISHMENTS: The Launch, a market rate development in the Alameda Marina neighborhood, completed construction and began the lease up process. The Launch contains twenty-eight (28) units that serve households at 80% of the area median income (AMI) and below.

### **Regional Goal: Homeownership**

Increase homeownership among low and moderate-income households

ACCOMPLISHMENTS: In FY 2022, the City entered into an Affordable Housing Agreement for Alameda Marina Phase 2, which contains 14 units for households who earn under 80% AMI.

### **Regional Goal: Supportive Services.**

Maintain and expand supportive services for lower-income households

ACCOMPLISHMENT: The City funded Alameda Point Collaborative (APC), a Community Based Development Organization (CBDO). APC provided on the job training to 22 participants, 13 have gone on to further employment, and 10 of those are still employed. APC relaunched a summer youth program targeting youth still in high school with early workforce exposure, and 37 residents participated in ongoing career readiness workshops and trainings.

ACCOMPLISHMENT: In response to the growing number of individuals and families living in their cars, the City engaged Village of Love (VOL) to offer Day Center services, a Safe Parking Program with 25 parking spaces and up to 12 beds for overnight shelter at the Day Center. At the Day Center, VOL staff connect clients to housing, health, mental health, substance use, and social services and supports. Offers classes, meals, well checks, showers, and enrichment activities. The Day Center also provides a safe and welcoming place for clients to relax and participate in programs.

### **Regional Goal: Marketing**

Maintain and expand awareness of affordable housing opportunities and services through marketing efforts.

ACCOMPLISHMENT: The City provides information on the Internet that is accessible and translatable. In addition, print materials are available in multiple languages.

### **Regional Goal: Community Development**

Explore new funding sources for affordable housing and community development

ACCOMPLISHMENT: In FY 2022, City staff secured funds from two new funding sources: 1) \$500,000 Community Project Funding Grant from HUD for Dignity Village; 2) \$1,824,243 Permanent Local Housing Allocation from the State of California to support the provision of services and development of affordable housing that benefits people who are at risk of or are experiencing homelessness.

### **Actions taken to address obstacles to meeting underserved needs. 91.220(k); 91.320(j)**

To address the immediate, short-term needs of residents facing imminent hunger and/or homelessness, the City funds safety net programs designed to prevent homelessness.

### **Emergency Food Distribution**

During FY 2022, the Alameda Food Bank (AFB) continued to see greater demand for the services than had been provided prior to the COVID-19 health pandemic. There has been an increase in both the number of new participants, as well as an increase in the frequency of visits by existing participants. During fiscal year 2022, AFB provided food to 6,302 individuals.

AFB participates in many collaborative endeavors in Alameda, including the Senior Services Action Team

(Meals on Wheels, Mastick Senior Center, Alameda Hospital, Mobility Matters, Friendly Visitors, Alameda Family Services); the Alameda Collaborative for Children, Youth and their Families; Collaboration Advancing Resources, Efforts, and Support for Alameda's Homeless; and the Executive Directors Roundtable group. AFB has a strong partnership with the Alameda Housing Authority, providing food on-site at their apartments for seniors and low-income residents. AFB also provides snacks and fruit to disadvantaged students through Alameda Family Services' school-based health clinics.

While AFB is fortunate to receive donated produce from local grocery stores and the farmers' market, plus picking up free produce from the Alameda County Community Food Bank, AFB needs to purchase additional produce to ensure that there are enough good quality fruits and vegetables for all.

In addition to its normal operations, AFB is part of the city-wide Homeless Outreach Team. AFB provides food to the groups making dinners for the Dine and Connect monthly dinners for the homeless.

### **CV-Emergency Shelter**

The Family Violence and Law Center (FVLC) provided critical services for individuals fleeing stalking, dating violence, domestic violence, sexual assault or human trafficking that occurred within the City of Alameda. The Alameda Police Department (APD) provides domestic violence police reports directly to FVLC Crisis Services Managers, who follow up with victims to offer crisis intervention and legal services. In FY 2022, FVLC's Emergency Shelter Program provided emergency hotel relocation, crisis counseling and safety planning to four (4) unduplicated victims of domestic violence within the City of Alameda. The four survivors received thirty-one (31) nights of hotel stays, which allowed survivors to leave violent homes without fear of immediate insecurity in the midst of a global pandemic.

### **Actions taken to reduce lead-based paint hazards. 91.220(k); 91.320(j)**

The Alameda County Health Department recommends that children six (6) years old and under be screened for lead, particularly those children living in, regularly visiting or attending a child care facility built before 1978. The local health department also provides guidance to address any concerns parents or guardians might have as well as guidance for renovating and clean up of lead-based paint hazards.

The City participates in the Alameda County Service Area for Lead Abatement (CSALA), which funds the Alameda County Lead Poisoning Prevention Program (LPPP). Through the LPPP, renters and homeowners receive information about lead hazards in their homes.

In FY 2022, through the City's contractor, Rebuilding Together, the City obtained seventeen (17) lead-based paint visual assessments of units occupied by low-income tenants.

### **Actions taken to reduce the number of poverty-level families. 91.220(k); 91.320(j)**

The City's anti-poverty strategy will be carried out through a combination of CDBG-funded public initiatives and non-profit services to low-income residents. A range of public services are intended to move families and individuals along a continuum from "in crisis" or "vulnerable" to "stable" or "thriving" members of the community. This keeps within the recommendations of the City's Social Services and Human Relations Board. Public services funding will include safety net services and other services helping individuals in poverty move along this continuum.

Alameda funded the following services in FY 2022:

- Emergency food and shelter
- Domestic violence services
- Senior legal services
- Employment training and placement
- Fair housing/tenant-landlord services
- Mental Health Services

On October 2, 2018, the Alameda City Council passed a **Minimum Wage Ordinance** to raise the citywide minimum wage to \$15.00 per hour by July 1, 2020 with an annual CPI adjustment of not greater than five percent starting in July 2022. The City's current adjusted minimum wage is \$16.52 per hour. According to the National Low-Income Housing Coalition *Out of Reach 2018* study, a wage of \$51.15 per hour is required to afford a two-bedroom apartment in Alameda, CA. While the additional minimum wage requirement will be helpful to meet basic needs, affordable housing will remain out of reach for these households.

On May 17, 2022, the City Council gave direction to develop a Guaranteed Basic Income (GBI) pilot program focusing on low-income residents. The pilot program will provide \$1,000/per month to approximately 150 low-income households over a two-year period. The program is taking applications starting on September 8, 2023 and is available to Alameda residents ages 18 or older with a yearly household income at or below 50 percent of the Area Median Income (AMI).

### **Rental Policy**

Rent Ordinance No. 3250 prevents landlords from terminating a tenancy except for certain allowable grounds and requires a relocation payment in circumstances that are not the fault of the tenant. Amounts for these relocation payments were established by City Council resolution and are adjusted annually based on a component of the Consumer Price Index (CPI) calculated by the U.S. Bureau of Labor Statistics. Any tenant whose tenancy is permanently terminated based on Owner Move-In, Demolition, Capital Improvement Plan, Withdrawal of the Rental Unit from the Rental Market, or Compliance with a Governmental Order is entitled to a relocation payment. Tenant households that include someone age 62 or older, who has a disability, or who has a child younger than 18 receive a larger payment.

## **Actions taken to develop institutional structure. 91.220(k); 91.320(j)**

The City's Housing and Human Services staff work closely with other departments to accomplish local community, housing, and business development objectives outlined in the Action Plan. City Boards and Commissions, such as the Commission on Disability Issues and the Social Services and Human Relations Board (SSHRB), are advisory to the City Council and provide input regarding priority community needs and objectives. SSHRB conducted a Public Community Needs hearing and made recommendations to the City Council regarding CDBG public service funding allocations. SSHRB also held its third annual City of Alameda Community Service Awards Program and continues to support Alameda's Domestic Violence Task Force.

In FY 2022, SSHRB presented the Community Needs Assessment to City Council for acceptance. The following themes and community needs emerged based on the data collected and information gathered from previous community meetings with local service providers and stakeholders, as described above.

- Racial equity concerns are at the core of many of these issues. While the statistics regarding race and ethnicity provide a snapshot, the stark statistics of overall financial inequity indicate a strong reason to investigate and address these needs. Examples include:
  - The median household income of households of color (households that self-identify as non-white) was significantly lower than households that identified as white. American Indian and Alaskan Native households reported income 44 percent lower than white households, Black and African American families were 41 percent lower, and Hispanic and Latino incomes were 32 percent lower.
  - Students of color were more likely to drop out of public schools in Alameda prior to high school graduation than White students.
- There are serious underlying issues and needs among certain segments of the population, especially in regard to student mental health crisis intervention and supportive programming. For example:
  - Student social connectedness decreased with age, with 72 percent of 5th graders feeling connected and 57 percent of 9th and 11th graders. Just 53 percent of 9th graders reported being able to identify a caring adult at school.
- Many languages other than English are spoken as the primary language among Alameda residents, highlighting the continued need for language access to information and referral services for English-as-a-second language and recent immigration populations. For example:
  - More than one third of Alameda residents speak a language other than English in the home.

- There are a number of household-level concerns identified in the CNA, including housing and homeless services, domestic violence, available and affordable childcare, food security, and mental health services. Examples include:
  - More than one-third of households in Alameda have a significant housing burden. This was especially true for renters with one in five households facing a housing burden.
  - Unsheltered homelessness increased by 27 percent between 2019 and 2022.
  - There was a 36 percent increase in the number of felony domestic violence cases between 2019 and 2021. Though SSHRB notes that reported cases are not necessarily reliable indicators of the prevalence of actual incidences of domestic violence. In addition, most domestic violence incidences either go unreported or are handled through the family law/civil court system.

**Actions taken to enhance coordination between public and private housing and social service agencies. 91.220(k); 91.320(j)**

There is a strong communication network among Alameda County jurisdictions, Alameda service providers, community groups, and citizens and this provides a broad knowledge base of the housing and social service needs within Alameda. For example, data gathered from local boards, community groups, and citizens, such as the Social Services and Human Relations Board, the Alameda Services Collaborative, and the Alameda Collaborative for Children, Youth, and Their Families, provide comprehensive information about housing, homeless, and social service needs within Alameda. Organizations serving the homeless, including Alameda County, EveryOne Home, and local homeless service providers, advise on the needs of the homeless.

The City’s Collaboration Advancing Research, Efforts, and Supports for Alameda’s Homeless (CARES) Team is the City-led consortium working to address the issue of homelessness in Alameda. Under the oversight of the CARES Team are programs that provide outreach and services to individuals experiencing homelessness. These are a product of work by CARES Team members including City departments, non-profit agencies, the Housing Authority, and community and faith-based organizations in Alameda.

These programs include:

- **Mobile Outreach** – The Homeless Outreach Team provide basic necessities to those experiencing homelessness while working on stabilizing their situation and helping them to find housing.
- **Dine and Connect**- Held every Monday, dinners lead by Alameda’s faith-based community provide a warm meal to those experiencing homelessness. Alongside dinner, this program connects individuals to services and resources and fosters community with an opportunity for individuals to meet, talk, and connect.

**Intensive Case Management** - The City supports case management services in addition to those provided through the countywide Continuum of Care. Building Futures provides a comprehensive, individualized array of services, including securing identification documents, obtaining pension or social security income, and physical and mental health needs. This helps to prepare unhoused individuals to obtain housing.

**Identify actions taken to overcome the effects of any impediments identified in the jurisdictions analysis of impediments to fair housing choice. 91.520(a)**

In FY 2022, the City provided funds to Eden Council for Hope and Opportunity (ECHO) for fair housing services. ECHO met its fair housing goals for the year and attributes its success to continuous auditing for compliance. ECHO Housing served 103 people. ECHO's Housing Counselor conducted 10 Fair Housing Audits and reached 100% of annual goals.

## **CR-40 - Monitoring 91.220 and 91.230**

**Describe the standards and procedures used to monitor activities carried out in furtherance of the plan and used to ensure long-term compliance with requirements of the programs involved, including minority business outreach and the comprehensive planning requirements**

The City of Alameda places a high priority on monitoring to ensure programs and projects are in compliance with federal regulations and with the objectives of the community. The City's monitoring efforts begin with the execution of legal agreements with nonprofit subgrantees, and housing owners, and memoranda of understanding with other public agencies. By incorporating performance requirements and reporting procedures, including outlines of specific objectives, timelines, and budgets, the City is able to evaluate performance.

Additional procedures for monitoring include:

### **Public Services**

- Monitoring subgrantees' quarterly performance reports and requests for reimbursements
- Annual or biannual on-site monitoring
- Annual review of audits for continuing subgrantees

### **Facilities and Improvements**

- Capital Improvement Project Team
- On-site monitoring of construction progress and labor monitoring
- Project oversight by City's Public Works Department as needed

### **Housing**

- Annual monitoring of rental projects in former Redevelopment Areas
- Monitoring of HOME-funded projects
- Annual monitoring of all affordable ownership units City-wide

Guyton Annual Report discussing total housing units developed City-wide

## **Citizen Participation Plan 91.105(d); 91.115(d)**

**Describe the efforts to provide citizens with reasonable notice and an opportunity to comment on performance reports.**

Consistent with the Citizen Participation Plan, the City makes the draft CAPER available for public review and comment for a 15-day period, which overlaps with the Consortium’s review period. As shown in Appendix B, the City of Alameda published a Public Notice in the following newspapers with the language shown in parentheses: Alameda Sun (English), Asian Journal (Tagalog), BaoMo (Vietnamese), Singtao Daily (Chinese), and Vision Hispana.

The draft CAPER was also available for review on the City of Alameda’s website as well as the Consortium’s review locations. The City’s web site is translatable

# VP accused of spending P125 million...

**PAGE 1**

amount of P221,424 "to cover financial assistance/subsidy and confidential fund."

The memo indicated that the Office of the President approved the release on Nov. 28, 2022.

**Confidential expenses**

Castro also pointed to the Commission on Audit's (COA) 2022 audit report on the OVP, which said this amount was composed of P125 million in confidential expenses and P96,424 million for medical assistance.

In the OVP's statement of appropriations, allotments, obligations, disbursements, and balances (SAADDB) as of the end of 2022, the OVP told the COA that it obligated and disbursed P125 million, with P66,424 million as the remaining unobligated allotment.

In the OVP's SAADDB as of June 30, 2023, the P66,424 million was also reported under "contingent fund, financial assistance/subsidy others."

"This implies that P125 million in confidential funds was already spent by Dec. 31, 2022, along with P30 million of the financial assistance, for a total of P155 million," Castro said.

She said guidelines on the use of confidential funds limit the expenses to "surveillance-related activities such as purchase of information, rental of transport vehicles, rental and maintenance of safehouses, purchase or rental of supplies, material and equipment, payment of rewards to informers, and uncovering or prevention of certain illegal activities."

No congressional authorization

The OVP is a civilian agency with no national defense or law enforcement function.

"We are curious as to how the OVP spent a huge amount in a short amount of time. How did they spend this big amount, which should not be considered confidential funds? It should not be kept secret because the OVP did not get congressional authorization for this in 2022," Castro said.

Last week, the Makabayan solon flagged the OVP's P125 million in confidential expenses for 2022 despite not having any appropriation for it in the 2022 General Appropriations Act.

She warned that the OVP may be held liable for violating provisions of the Constitution and the Revised Penal Code that require expenses to have corresponding appropriations in the national budget.

Castro pressed Duterte to explain how she incurred the expenses and called on the DDM and the Office of the President to explain the release of the funds.

She said the three-member bloc was mulling the filing of an impeachment complaint against Duterte but said it would wait for COA's findings on the P125-million confidential expenses first. ■

## Estudiantes se convierten en expertos en la detección de noticias falsas

**Beca de formación en medios de comunicación enseña a estudiantes de secundaria a identificar prejuicios y hechos falsos**

Si aparece en internet, tiene que ser cierto, ¿verdad? La mayoría de los adultos sabe que no es así, pero, ¿Qué sucede con los niños? De hecho, la mayoría de los niños, a pesar de haberse criado con tecnología, no lo sabe con claridad. En la última década, la cantidad de tiempo que los jóvenes pasan con los medios de comunicación ha aumentado drásticamente, por lo que es importante que aprendan a controlar los medios que los rodean, en lugar de dejar que los (medios) los controlen a ellos.

Learn4Life, una red de escuelas públicas que ofrece aprendizaje personalizado, creó el programa de levas Instrucción cívica e influencia de los medios de comunicación (CLMI, Civic Literacy and Media Influence). Los estudiantes trabajan con profesionales expertos en medios de comunicación para desarrollar habilidades de pensamiento crítico sobre los medios y aprender cómo le dan forma a nuestra cultura y sociedad. El curso, de doce semanas, se enfoca en los fundamentos del periodismo, la narrativa editorial, las políticas públicas, el gobierno y la narración de historias a través de módulos prácticos, basados en proyectos y conferencias.

"Nunca entendí la intención de las compañías de medios detrás de la información que divulgan", comentó Aspen A., quien acaba de completar una beca CLMI. "Buscan titulares atractivos e historias que cautiven al público. La gente piensa que las historias más importantes son las emocionales, pero no es así".

Aspen aprendió que el 48 por ciento de los adultos se informa, principalmente, a través de las redes sociales. "La complejidad en el consumo de noticias es cada vez mayor y observamos una prevalencia

de noticias falsas y engañosas", señaló. "Es fundamental que los adolescentes aprendan a distinguir los hechos de la ficción en el periodismo y trabajar en la promoción para garantizar que no nos dejemos persuadir por narraciones poco precisas". Aurora G., menciona que el programa de CLMI le permitió familiarizarse con fuentes de investigación valiosas y confiables. "Me incentivaron para que buscara datos basados en evidencias y artículos menos dogmáticos. A la vez, me informaron sobre el peligro de la información incorrecta y la desinformación a la que se accede fácilmente a través de los populares motores de búsqueda en línea", agregó. "Gran parte del mundo ha hecho la transición a la información y el mantenimiento de registros en línea, pero no hay suficientes personas que sepan cómo usar, comprender y traducir de manera eficiente la información que se les ofrece en internet".

En los últimos años, se ha observado una disminución en el sector del periodismo y se espera que se reduzca otro nueve por ciento en los próximos treinta años. El programa de CLMI en Learn4Life enfatiza el importante papel que desempeña el periodismo en la protección del interés público. Afortunadamente, programas de formación en medios de comunicación como este han despertado el interés de algunos estudiantes en seguir una carrera en periodismo.

Aspen recuerda la difícil tarea de escribir sin sesgos para el blog BE Note. "Cuando un tema te apasiona, quieres expresar todas tus opiniones en lo que escribes", explicó. "Pero el objetivo de informar a la gente es mencionar hechos sin prejuicios. Aprendí qué lenguaje usar y qué evitar. Por eso, ahora puedo saber cuándo un artículo se inclina deliberadamente hacia una determinada opinión".
