Applicant name: _____ Phone: _____

Address: _____

Contractor's License #: _____ City Business License #: _____

Please note the following:

- Urban runoff program requires that no contaminants, including dirt, enter the storm drain system. Contractor is required to protect inlets. *Failure to comply is subject to a \$200/day fine.*
- 48 hour advance is required for inspection. Contact Engineering division, Construction Inspection office at (510) 749-5840. Required inspections: Trenching, backfill, concrete, traffic/pedestrian detours, urban runoff, final inspection. *Failure to obtain inspection prior to work may result in rejection of said work.*
- All striping, painted graphics, and pavement markers damaged or destroyed by street excavation work must be restored by the permittee.
- All construction within the public right-of-way must have barricades with flashers for night time protection.
- All work involved is to be done in accordance with standard City of Alameda specifications and City of Alameda practices, all to the satisfaction of the City Engineer. Standard details are attached. Inspection charges shall be paid to the City monthly.
- Processing time for routine permits is 5 days. Permits requiring extensive research may require up to 15 days.
- *Failure to obtain inspections prior to completion of work is subject to additional inspection costs at a rate of \$32.70 per hour.*

Acceptance of this permit constitutes acceptance of the conditions included.

APPLICANT NOTICE – RIGHT OF WAY PERMITS

In the past two years, the City has experienced a dramatic increase in the number of companies seeking permits to install telecommunications-related facilities in the rights-of-way, resulting in a proliferation of street cuts and the installation of associated equipment, which, among other things, have had an adverse impact on the life and quality of the rights-of-way within the City.

As a result, the City is currently re-evaluating its current right-of-way management policies, and is in the process of preparing a revised, comprehensive ordinance that will establish and/or reinforce policies and procedures designed to enable the City to more effectively manage and control its rights-of-ways.

The City does not wish to hold-up new permit applications during this process, thus, the City has decided not to issue a blanket moratorium on new street-cut permits at this time. However, effective immediately, each new street cut permit issued shall contain the following condition:

By accepting this permit, the holder warrants and agrees that it shall comply with each and every provision of the right-of-way management ordinance that the City is currently preparing. The permit-holder further acknowledges and agrees that compliance with the provisions of the future right-of-way management ordinance is a condition to the continued effectiveness of the permit. Nothing herein is intended to prevent the permit-holder from claiming that a particular provision of the ordinance is prohibited by applicable law, provided that by accepting this permit, the permit-holder agrees that in the event that it raises such a claim, it will nevertheless comply with the subject ordinance provision unless and until permit-holder has been released from the obligation to comply by the City or by a court of competent jurisdiction.

This condition shall be attached to and become a part of each new street-cut permit issued by the City, with the exception of permits for maintenance and/or repair requested by our existing franchised cable providers and the other utilities maintaining or repairing their existing facilities.

I have read and acknowledge the condition to the Permit #. _____
